About **The Shift** by Dynasti Hunt

Thank you for your interest in our work!

For the last 10 years of my career, I've dedicated my work to creating, redesigning, and transforming D.E.I. and Human Resources functions across organizations. Sitting in a senior-level role, consulting CEOs, Boards, and Teams, I found that there are a foundational set of systems and tools that help companies build anti-racist, D.E.I. functions...but access to them was hard to find. My vision is to create accessible and inclusive learning spaces that take out the need to Google, search for 50 more webinars to take, and instead have businesses spend their time and energy building workspaces where all individuals, and in particular Black, Indigenous, and People of Color can not just feel safe, but truly thrive.

We call our entire suite of programs "The Shift" because we want to see you do just that: shift to anti-racist D.E.I. strategies, programs, and business functions that shift your organization from the inside out for the better. We work daily to be a place where leaders, businesses, and teams can deepen their skills, learn foundational anti-racist, D.E.I. principles, and build more diverse, inclusive business communities. We see ourselves as your partners in this journey and you'll always be met with directness, empathy, and support.

We are excited for you to join us! -Dynasti Hunt, Founder/CEO

The Modules

Each module provides practicum training, D.E.I. concept knowledge training and exercises, application assignments, and more.

This is the only course we offer in which all participants get lifetime access, including immediate access to new modules and content annually in order to stay up-to-date with their foundational learning

"Our company went through Dynasti Hunt's Equity Accelerator and it gave us such a strong framework to explore how we can build a better business, that's inclusive and equitable."
